rollee

Open Finance Platform for Income and Employment Data

www.getrollee.com

Because of data fragmentation companies struggle with gaining a holistic and credible view of a customers' financial situation.

Collecting employment and income data is time consuming

There is a risk of getting biased data through forged documents

Companies suffer from high drop-off rate because of bad user experience

Gig Platforms

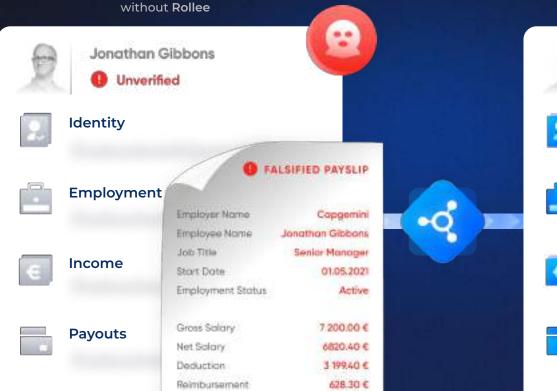

Spotting payroll forgery & improving underwriting

Altered and fraudulent payroll checks, identity and employment status may fool even the most knowledgeable companies and pass their underwriting and KYC process.

with Rollee

Verified Profile

Full name, date of birth, place of birth, email, address, driving license, and more.

Verified Employment

Employer's name, employment status, job title, start date, payslips, and more.

Verified Income

Annual salary or hourly wage, taxes, monthly salary, net earnings, deduction, and more.

Verified Payouts

Real-time visibility into pay data with recent and historical paystubs, gross pay, net pay, deductions, taxes and more.

OUR SOLUTION

We are building a gateway to access income and working data of all EMEA workers.

Customers' payroll accounts hold valuable financial data.

Rollee is able to unlock it and help companies to build the future of finance by new offerings, products and fairer financial services.

COMPLIANT WITH EU REGULATIONS

Rollee acts as a third party who provides non falsified payslips, and verified income.

Adia, Rus Hurstoni

As a Risk Manager, I need very precise info about 🐒 John's Income and employment to reduce risk,

John Vella 👰 is a full time employee, But also rents his flat 🕱 on Airbnb and works as a freelancer on Toptal. John connects his off income sources **Rollee Platform**

Smither

John Vella is currently a Senior Manager at HSBC Bank and his basic annual salary for year 2022 is € 98 400.30

locome :	Employment	iden

Multiple touchpoints for our clients

Our integrations, secure API, customizable Connect, and user-friendly Dashboard make it simple to implement Rollee within your product or user journey in matter of minutes not months.

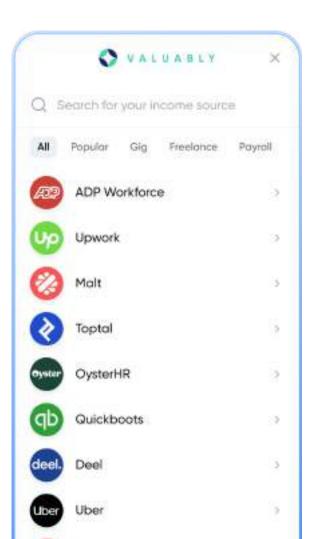

Connect 🧑

Build a seamless user experience to connect your customers' work accounts in just a few clicks.

Easy validation of your user's income and employment status in order to securely provide them with better services. <u>API</u>

Easily integrate our API to your application or website to let users connect their work accounts in order to share their income.

How it works

Rollee Connect is a simple way to collect users' income and employment data without any integrations. Data is collected directly from data source, standardized on our server and provided to our Clients.

A secure link to generate for each data aggregation

A seamless user experience that increases conversion rate

Rollee is fully GDPR complaint and data access is via user's consent

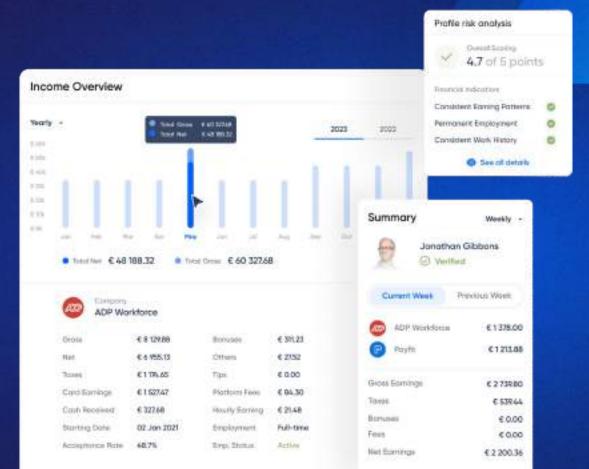

See Rollee Connect

Our product

Verify your users' income, job and taxes. Combine all data points to improve your underwriting.

See Video Explainer

We believe income & employment data will unlock plenty of new opportunities to make the financial system more inclusive.
